Dear Sirs and Lady,

It has been brought to my attention that non-financial relationships that I have outside of the UAMCC may be called into question and give the appearance of bias on my part to certain members and associates. I would never want to do anything that would taint or make this organization appear to act less than completely legitimate in our member's and associate member's eyes.

In accordance with what is "best" for this organization, I respectfully resign my elected position of Vice-President and all committee chair involvement. Please remove me from all financial responsibilities (including bank account signatory) effectively immediately.

Thank you all for the opportunities the UAMCC has given to me in the past few years. Of course I will retain my contributing membership and continue to be an advocate for this association. Should you ever need my services to teach a class or participate in an event, please don't hesitate to call on me.

I want to congratulate you all on a very successful Orlando Event. Kristy and her team went above and beyond the call of duty, and I thank you all for your hard volunteer work. This was the event that this UAMCC needed, and will be the benchmark to which future conventions are compared.

Best Regards,

Ray Burke, Managing Member
