Clean Up America Fast  
*with*

# Rider36

**Let the Rider36 make  
a Monster out of you.**

*When minutes count and quality matters, buy Whisper Wash.*

**Put the pedal to the metal, get your hard surfaces clean and eliminate the fatigue factor.**

The new Rider36 is a simple way to clean more area in less time. Simply hook to your current pressure washer, have a seat and get to work.

The unit features independently driven hydraulic drive for ease of operation and service. There is a simple hand control system where all important functions can be monitored from the drivers seat. The built in boom system keeps your hose up and out of the way.

The cleaning deck is removable and interchangeable for any size that suits your need and can be used as a traditional surface cleaner by simply attaching the handle. The system also is available with a recovery option.

**Use less man power, less water, and clean more area faster than ever before.**
